Was means fx. 22" (inch)?

1. 22" (inch) are 55,8cm
2. it is the pure length of the harnesslines with the velcro fixing.

What is the right length for me?

Examples as a guide:

a height of 170 cm

Recommendation at least 22" or 24"

a height of 180 cm

Recommendation at least 24" or 26"

In any case longer harness lines than too short.

With significantly longer harness lines improve the handling characteristics.
